

- 1) To order pieces exactly as shown in the catalog or web, simply write “as shown”. There is no need to state the color.
- 2) To order a color combination other than as shown please specify the PERIMETER and PRIMARY colors. ACCENT and SECONDARY colors can also be selected by the you or your client, although we encourage you to leave this up to the artist’s discretion. Many people are easily confused with the word SECONDARY color. The secondary color is the color that shows through in areas where the furniture piece is distressed (see illustration). It can also be referred to as the color underneath the main or background color.
- 3) In most cases, our catalog and web site specify PERIMETER and PRIMARY colors, although all of our pieces also have ACCENT and SECONDARY colors.
- 4) Our unique polychromic process involves the application of 7 layers of paint. If there is a specific color that you don’t want to see at all, please make a note under *Special Instructions* in our sales order form. For example, if you are ordering a dining table SPICY RED and SAND note that other colors will be used on the background layers, accents and motifs. If you don’t want to see AQUA BLUE or BLACK, please specify so in Special Instructions. Alternatively, if you want to see a hint of AQUA BLUE or BLACK, specify this in Special Instructions.
- 5) Motifs are available from 29 motifs shown in our catalog, or we will duplicate a custom motif sent by you or your client. Again, there is no need to state the motif if the piece will be exactly the same as the piece in the catalogue. If there is a motif on the original piece and you want a different one or do not want one at all, then state that. Anything that you want to customize is fine as far as you clearly communicate with us; it is always best is to send us a rough sketch of the changes you desire.

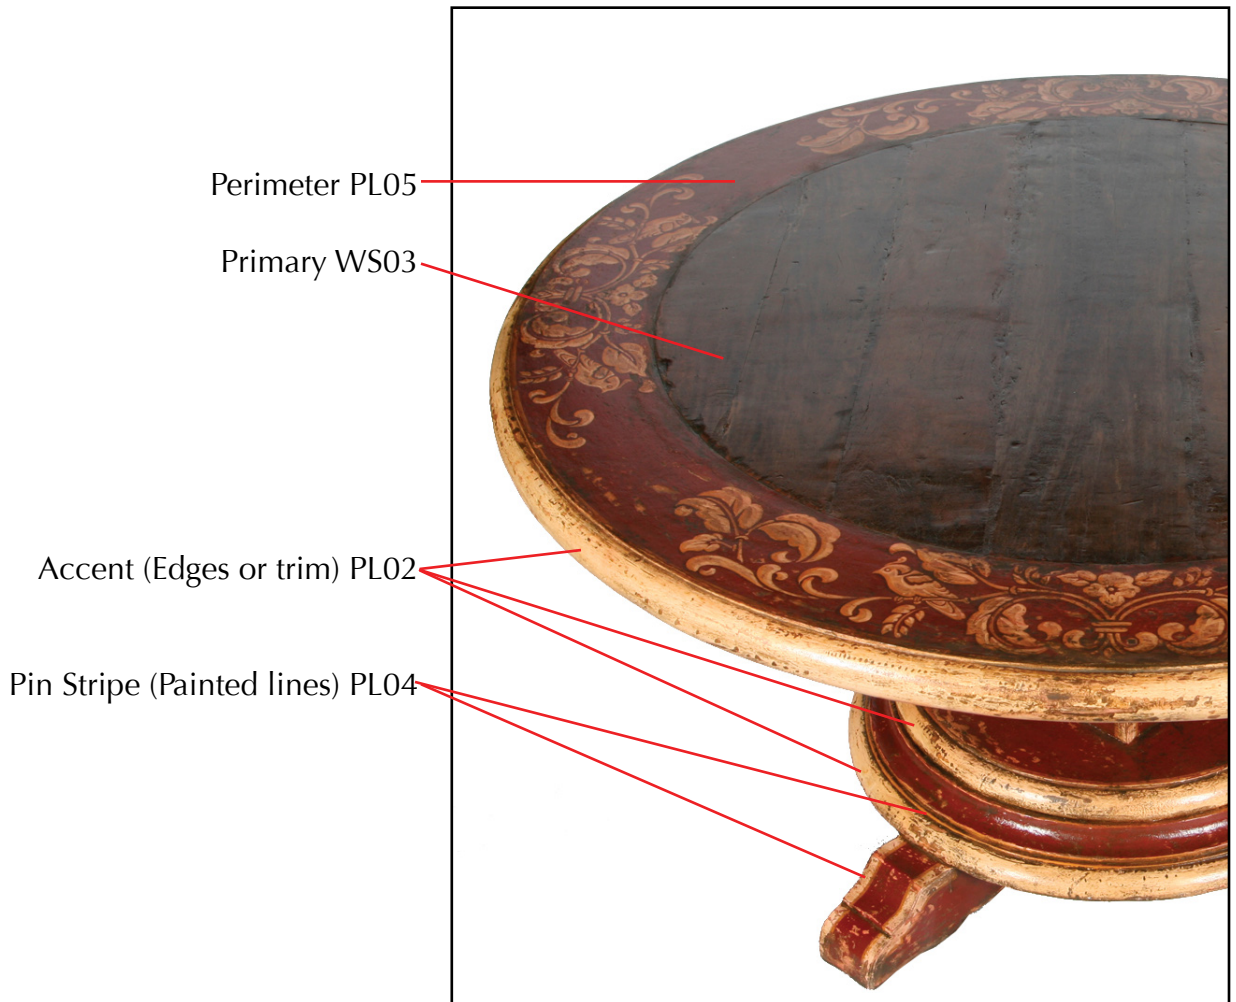

Following are detailed explanation and illustrations of several products with their color combinations and motifs. For your information we have added the accent color and the pin stripe color that is also part of the accent color in every product below. Because the secondary color is difficult to identify in small photos, we have not identified it here, and as we suggested above, we prefer to leave that up to the artist.

Ideally, we request that you provide only the basic colors (perimeter and primary colors) and leave the accent and secondary colors up to the artist. As shown in the illustration, the dining table has the perimeter color Spicy Red (PL05) and the primary color (the center of the table top) is Medium Brown (WS03). For a very specific project or piece, the designer can specify all the colors, includ-

SPECIFYING COLORS/MOTIFS

ing accents, secondary color, and where they want the motifs to be placed. If this is the case, we request that you provide us with a detailed drawing that our artist can follow.

If the designer wants a specific detail different than shown in our website or catalog, it is important to state this under the special instructions field.

Product: Armchair
Dimensions: 21.5"w x 19.5"d x 43.5"h
Style: Handpainted
